## Abstracts

According to our (Global Info Research) latest study, the global Real-Time Marketing Services market size was valued at USD million in 2023 and is forecast to a readjusted size of USD million by 2030 with a CAGR of % during review period.

Real-Time Marketing is marketing performed "on-the-fly" to determine an appropriate or optimal approach to a particular customer at a particular time and place. It is a form of market research inbound marketing that seeks the most appropriate offer for a given customer sales opportunity, reversing the traditional outbound marketing (or interruption marketing) which aims to acquire appropriate customers for a given 'pre-defined' offer. The dynamic 'just-in-time' decision making behind a real-time offer aims to exploit a given customer interaction defined by web-site clicks or verbal contact center conversation.

Real-Time Marketing Services is a service provided by a professional marketing agency or platform designed to help enterprises implement real-time marketing strategies and activities. These services usually combine technical means such as real-time data analysis, personalized recommendations and instant interaction to meet consumers' personalized needs and improve user experience.
