## Abstracts

According to our (Global Info Research) latest study, the global Remote Online Notary Service market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

In terms of regions, North America is expected to remain the largest market for remote online notary service during the forecast period. As more businesses and individuals adopt digital processes for legal and financial transactions, the demand for remote online notary services is expected to continue to grow.

Remote Online Notary Service is a service that allows a notary public to notarize documents remotely using audio and video conferencing technology. In traditional notarization, the notary public and the person signing the document must be physically present in the same room. But with remote online notarization, the notary and the signer can be in different locations.
