Abstracts

The global Rideshare App market size is expected to reach \$ 25434 million by 2032, rising at a market growth of 8.4% CAGR during the forecast period (2026-2032). A rideshare app connects passengers with nearby drivers for on-demand, app-based transportation, using GPS for matching, tracking, and cashless payments, with players offering various services from basic rides to food delivery, carpooling, and even scooters. These platforms revolutionized urban mobility by offering convenience, upfront pricing, and flexible earning for drivers, though debates continue regarding driver classification and regulation.

The rideshare market is entering its second act?moving from growth-at-all-costs to sustainable mobility ecosystems. Winners will be determined by: Execution on profitability while maintaining service quality; Successful diversification beyond core ride-hailing; Navigation of regulatory complexity across diverse markets; Strategic positioning for the AV transition; Superior localization** in high-growth emerging markets.

The industry faces consolidation pressure in mature markets while fragmentation persists in emerging regions. The ultimate prize is becoming the operating system for urban mobility?a role currently contested by rideshare platforms, automakers, tech giants, and possibly new entrants yet to emerge.

This report studies the global Rideshare App demand, key companies, and key regions. This report is a detailed and comprehensive analysis of the world market for Rideshare App, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Rideshare App that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global Rideshare App total market, 2021-2032, (USD Million)

Global Rideshare App total market by region & country, CAGR, 2021-2032, (USD Million)

U.S. VS China: Rideshare App total market, key domestic companies, and share, (USD Million)

Global Rideshare App revenue by player, revenue and market share 2021-2026, (USD Million)

Global Rideshare App total market by Type, CAGR, 2021-2032, (USD Million)

Global Rideshare App total market by Application, CAGR, 2021-2032, (USD Million)

This report profiles major players in the global Rideshare App market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Uber, Lyft, Gojek, Careem, Ola Cabs, Via, BlaBla Car, Bridj, GoKid, Hitch, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the world Rideshare App market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US\$ Millions), by player, by regions, by Type, and by Application. Data is given for the years 2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and 2027-2032 as the forecast year.
