SCOPE OF THE REPORT:

This report focuses on the Rifle Scopes in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Riflescope is a fragmented industry with a variety of manufacturers ranging from large multinational corporations to small privately-owned companies. The top three producers account for 16.68% of the market in terms of volume. Most companies involved in this industry are professional manufacturers of riflescope and binocular with no other major products, while some players are well known lens producers that supply high-quality products, such as Nikon and Zeiss.

The riflescope is driven by several factors, among which the most crucial ones are hunting, shooting sports and armed forces. Hunting is the major application of riflescope, which accounted for 23.14%. of world riflescope consumption in 2016 in terms of volume. Shooting sports and hunting have emerging to be a fast-growing market of riflescope in developed countries.

The worldwide market for Rifle Scopes is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
