Abstracts

According to our (Global Info Research) latest study, the global Roll Mode Soft Capsule Machine market size was valued at US\$ 159 million in 2025 and is forecast to a readjusted size of US\$ 243 million by 2032 with a CAGR of 6.2% during review period.

In 2025, the global production capacity of Roll Mode Soft Capsule Machine was approximately 1,723 units, and the global production reached about 1,292 units, with an average global market price of around US\$ 120,000 per unit. The gross profit margin of major companies in the industry ranges from 25% to 45%. Roll Mode Soft Capsule Machine is a GMP-compliant pharmaceutical packaging device. It injects oil, paste and other materials into two gelatin films quantitatively, then presses and cuts them into soft capsules of various shapes through two roller dies. It integrates multiple components and features low noise, precise thickness adjustment of gelatin films and stable production, widely used in pharmaceuticals, health products, cosmetics and pesticide fields.

The industrial chain of Roll Mode Soft Capsule Machine includes upstream parts such as roller dies, motors, PLC control systems, gelatin melting tanks and stainless steel components. The midstream covers manufacturers integrating technologies to produce machines that meet international standards. The downstream involves pharmaceutical enterprises, health product factories, cosmetic manufacturers and pesticide producers, which use the machines to produce vitamin soft capsules, skin care essence capsules and other products. Supporting services include equipment commissioning, technical training and after-sales maintenance to ensure compliance and production efficiency.

The global Roll Mode Soft Capsule Machine market is driven by the booming

nutraceutical and pharmaceutical industries. The aging population and increased health awareness boost demand for soft capsule supplements. Technological upgrades like water cooling and PLC control enhance production efficiency and product quality. The rising popularity of cosmetics and pesticide soft capsules also expands the market. While international brands lead in high-end segments, domestic manufacturers gain share with cost advantages. Future development will focus on intelligent upgrades and eco-friendly designs to meet stricter regulatory and sustainability demands.

This report is a detailed and comprehensive analysis for global Roll Mode Soft Capsule Machine market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Roll Mode Soft Capsule Machine market size and forecasts, in consumption value (\$ Million), sales quantity (Units), and average selling prices (K US\$/Unit), 2021-2032

Global Roll Mode Soft Capsule Machine market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Units), and average selling prices (K US\$/Unit), 2021-2032

Global Roll Mode Soft Capsule Machine market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (Units), and average selling prices (K US\$/Unit), 2021-2032

Global Roll Mode Soft Capsule Machine market shares of main players, shipments in revenue (\$ Million), sales quantity (Units), and ASP (K US\$/Unit), 2021-2026

The Primary Objectives in This Report Are:

- To determine the size of the total market opportunity of global and key countries
- To assess the growth potential for Roll Mode Soft Capsule Machine
- To forecast future growth in each product and end-use market
- To assess competitive factors affecting the marketplace

This report profiles key players in the global Roll Mode Soft Capsule Machine market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Pharmachem, I.M.A., Harro H?fliger, Feton, Grand-Packing, Sed Machinery, MiGrand Machinery, Tienmin, Huayi Chem, Truking Feiyun Pharmaceutical Equipment, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Roll Mode Soft Capsule Machine market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Lab-scale

Pilot-scale

Production-scale

Market segment by Product Shape

Oval

Oblong

Round

Others

Market segment by Application

Pharmaceuticals

Health Products

Cosmetics

Others

Major players covered

Pharmachem

I.M.A.

Harro H?fliger

Feton

Grand-Packing

Sed Machinery

MiGrand Machinery

Tienmin

Huayi Chem

Truiking Feiyun Pharmaceutical Equipment

Zhongtian Jinglan

Hanyoo

Market segment by region, regional analysis covers
North America (United States, Canada, and Mexico)
Europe (Germany, France, United Kingdom, Russia, Italy, and Rest of Europe)

Asia-Pacific (China, Japan, Korea, India, Southeast Asia, and Australia)
South America (Brazil, Argentina, Colombia, and Rest of South America)
Middle East & Africa (Saudi Arabia, UAE, Egypt, South Africa, and Rest of Middle East & Africa)

The content of the study subjects, includes a total of 15 chapters:

Chapter 1, to describe Roll Mode Soft Capsule Machine product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top manufacturers of Roll Mode Soft Capsule Machine, with price, sales quantity, revenue, and global market share of Roll Mode Soft Capsule Machine from 2021 to 2026.

Chapter 3, the Roll Mode Soft Capsule Machine competitive situation, sales quantity, revenue, and global market share of top manufacturers are analyzed emphatically by landscape contrast.

Chapter 4, the Roll Mode Soft Capsule Machine breakdown data are shown at the regional level, to show the sales quantity, consumption value, and growth by regions, from 2021 to 2032.

Chapter 5 and 6, to segment the sales by Type and by Application, with sales market share and growth rate by Type, by Application, from 2021 to 2032.

Chapter 7, 8, 9, 10 and 11, to break the sales data at the country level, with sales quantity, consumption value, and market share for key countries in the world, from 2021 to 2026. and Roll Mode Soft Capsule Machine market forecast, by regions, by Type, and by Application, with sales and revenue, from 2027 to 2032.

Chapter 12, market dynamics, drivers, restraints, trends, and Porters Five Forces analysis.

Chapter 13, the key raw materials and key suppliers, and industry chain of Roll Mode Soft Capsule Machine.

Chapter 14 and 15, to describe Roll Mode Soft Capsule Machine sales channel, distributors, customers, research findings and conclusion.
