Abstracts

The global Roll Mode Soft Capsule Machine market size is expected to reach \$ 243 million by 2032, rising at a market growth of 6.2% CAGR during the forecast period (2026-2032).

In 2025, the global production capacity of Roll Mode Soft Capsule Machine was approximately 1,723 units, and the global production reached about 1,292 units, with an average global market price of around US\$ 120,000 per unit. The gross profit margin of major companies in the industry ranges from 25% to 45%. Roll Mode Soft Capsule Machine is a GMP-compliant pharmaceutical packaging device. It injects oil, paste and other materials into two gelatin films quantitatively, then presses and cuts them into soft capsules of various shapes through two roller dies. It integrates multiple components and features low noise, precise thickness adjustment of gelatin films and stable production, widely used in pharmaceuticals, health products, cosmetics and pesticide fields.

The industrial chain of Roll Mode Soft Capsule Machine includes upstream parts such as roller dies, motors, PLC control systems, gelatin melting tanks and stainless steel components. The midstream covers manufacturers integrating technologies to produce machines that meet international standards. The downstream involves pharmaceutical enterprises, health product factories, cosmetic manufacturers and pesticide producers, which use the machines to produce vitamin soft capsules, skin care essence capsules and other products. Supporting services include equipment commissioning, technical training and after-sales maintenance to ensure compliance and production efficiency.

The global Roll Mode Soft Capsule Machine market is driven by the booming nutraceutical and pharmaceutical industries. The aging population and increased health

awareness boost demand for soft capsule supplements. Technological upgrades like water cooling and PLC control enhance production efficiency and product quality. The rising popularity of cosmetics and pesticide soft capsules also expands the market. While international brands lead in high-end segments, domestic manufacturers gain share with cost advantages. Future development will focus on intelligent upgrades and eco-friendly designs to meet stricter regulatory and sustainability demands.

This report studies the global Roll Mode Soft Capsule Machine production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Roll Mode Soft Capsule Machine and provides market size (US\$ million) and Year-over-Year (YoY) Growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Roll Mode Soft Capsule Machine that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global Roll Mode Soft Capsule Machine total production and demand, 2021-2032, (Units)

Global Roll Mode Soft Capsule Machine total production value, 2021-2032, (USD Million)

Global Roll Mode Soft Capsule Machine production by region & country, production, value, CAGR, 2021-2032, (USD Million) & (Units), (based on production site)

Global Roll Mode Soft Capsule Machine consumption by region & country, CAGR, 2021-2032 & (Units)

U.S. VS China: Roll Mode Soft Capsule Machine domestic production, consumption, key domestic manufacturers and share

Global Roll Mode Soft Capsule Machine production by manufacturer, production, price, value and market share 2021-2026, (USD Million) & (Units)

Global Roll Mode Soft Capsule Machine production by Type, production, value, CAGR, 2021-2032, (USD Million) & (Units)

Global Roll Mode Soft Capsule Machine production by Application, production, value, CAGR, 2021-2032, (USD Million) & (Units)

This report profiles key players in the global Roll Mode Soft Capsule Machine market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Pharmachem, I.M.A., Harro H?fliger, Feton, Grand-Packing, Sed Machinery, MiGrand Machinery, Tienmin, Huayi Chem, Truking Feiyun Pharmaceutical Equipment, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the World Roll Mode Soft Capsule Machine market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US\$ Millions), volume (production, consumption) & (Units) and average price (K US\$/Unit) by manufacturer, by Type, and by Application. Data is given for the years 2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and 2027-2032 as the forecast year.
