### SCOPE OF THE REPORT:

This report studies the Sacral Nerve Stimulation market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Sacral Nerve Stimulation market by product type and applications/end industries.

The external SNS device is one of the fastest growing product segments in the global sacral nerve stimulation market. Although there is just one external device available in the market, it is FDA approved and has the CE mark. However, this device is completely new to the market in APAC as implantable SNS devices are more popular compared with external SNS devices. With the introduction of new SNS devices by companies such as Nuvectra and Axonics Modulation Technologies, this segment is anticipated to have a positive outlook in the coming years.

The hospitals segment was the highest revenue contributing segment in the sacral nerve stimulation market. The complexity of the device, the need for technical expertise, and high procedure cost are some of the factors that will promote the increased adoption of SNS devices in hospitals.
