## Abstracts

According to our (Global Info Research) latest study, the global Safe Load Indicator market size was valued at USD 97.8 million in 2023 and is forecast to a readjusted size of USD 127.2 million by 2030 with a CAGR of 3.8% during review period.

Safe Load Indicator, also called Load moment indicator, means a system which aids the equipment operator by sensing (directly or indirectly) the overturning moment on the equipment, i.e., load multiplied by radius. It compares this lifting condition to the equipment's rated capacity, and indicates to the operator the percentage of capacity at which the equipment is working. Lights, bells, or buzzers may be incorporated as a warning of an approaching overload condition.

The main manufacturers of Global Safe Load Indicators include Wika Mobile Control, RaycoWylie, Robway Safety, etc. These top three manufacturers hold a market share about 30%.
