Abstracts

The global Scandium Metal market size is expected to reach \$ 160.9 million by 2029, rising at a market growth of 11.3% CAGR during the forecast period (2023-2029).

Global main manufacturers of Scandium metal include MCC, Hunan Oriental Scandium and Rusal, etc. The top three players hold a share about 37%. China is the largest producer, holds a share around 58%, followed by Europe and Australia, with share 29% and 1%, separately. The largest market is North America, holds a share about 37%, followed by Asia Pacific and Europe, with around 36% and 26% market share respectively.

Scandium is a silvery metal that is soft and has a density of about three times that of water. And it is a transition metal and is also considered a rare earth element due to similar chemical properties (such as difficulty in extracting and in separating from other elements) and existence in the same ores.
