Abstracts

Scented candles refer to candles that have synthetic or natural scented material blended into them to provide a pleasant smell while burning. Scented candles provide a relaxing environment as a result of the fragrances released while burning.

SCOPE OF THE REPORT:

This report focuses on the Scented Candles in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. According to the candle market statistics, the retail outlet's segment accounted for the majority market share during 2017 and will continue to dominate the market for the next few years. Some of the major factors responsible for the market segment's growth is the growing preference of consumers to see and buy the products directly from the shop and the growing number of retail outlets in developing and emerging countries such as China and India.

In terms of geography, the Americas accounted for the majority candle market share during 2017 and will continue to dominate the market for the next few years. Some of the major factors contributing to the increasing sales volume of scented candles throughout the region are the growing number of spas, stress-related cases, injury recovery and rehabilitation, pampering and indulgence, and pain management.

The worldwide market for Scented Candles is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
