Seabuckthorn fruit powder is a powdered product made from seabuckthorn fruit through washing, dehydration, grinding and other processes. Seabuckthorn fruit is a plant that grows in cold and high-altitude areas. Its fruit is rich in vitamin C, vitamin E, carotenoids, amino acids, minerals and a variety of natural phytochemicals. As a natural nutritional supplement, seabuckthorn fruit powder is widely used in food, health care products, cosmetics and traditional Chinese medicine due to its excellent antioxidant capacity, immune enhancement and skin health promotion properties. Seabuckthorn fruit powder retains a variety of active ingredients in seabuckthorn fruit and has high biological activity and nutritional value. Due to its unique composition, seabuckthorn fruit powder has broad application prospects in anti-aging, regulating blood lipids, improving intestinal health, and promoting digestion and absorption. The preparation process of seabuckthorn fruit powder usually includes low-temperature drying to maximize the retention of the nutrients and flavor of seabuckthorn fruit, making it a natural and healthy food additive or functional raw material. In addition, seabuckthorn fruit powder also has certain anti-inflammatory, antibacterial and anti-tumor effects due to its rich unsaturated fatty acids (such as linoleic acid and oleic acid) and rich natural plant flavonoids. In recent years, as consumers' demand for natural, organic and healthy products increases, sea buckthorn fruit powder has gradually become a popular health food ingredient, especially in the field of antioxidant health and beauty, with unique advantages.
