Abstracts

The global Security Operation Centre as a Service market size is expected to reach $ 4306.2 million by 2030, rising at a market growth of 13.2% CAGR during the forecast period (2024-2030).

The Security Operation Centre as a Service (SOCaaS) market has been experiencing significant growth in recent years. Several trends are shaping this market:Increasing cybersecurity threats: With the rise in cyberattacks and data breaches, organizations are becoming more aware of the need for robust security measures. SOCaaS offers a proactive approach to cybersecurity by providing continuous monitoring, threat detection, and incident response services.Growing adoption of cloud-based services: As more businesses migrate their operations to the cloud, there is a need for cloud-native security solutions. SOCaaS providers offer cloud-based security monitoring and management, ensuring the protection of cloud-based assets and data.

This report studies the global Security Operation Centre as a Service demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Security Operation Centre as a Service, and provides market size (US$ million) and Year-over-Year (YoY) growth, considering 2023 as the base year. This report explores demand trends and competition, as well as details the characteristics of Security Operation Centre as a Service that contribute to its increasing demand across many markets.

Highlights and key features of the study
