Abstracts

According to our (Global Info Research) latest study, the global Semiconductor Circuit Breaker market size was valued at US\$ 306 million in 2025 and is forecast to a readjusted size of US\$ 1000 million by 2032 with a CAGR of 18.6% during review period.

Semiconductor Circuit Breaker is an advanced circuit protection device that uses power semiconductor switching modules to interrupt fault current through electronic control, replacing the slow mechanical contact separation process with faster, controllable, and arc-free interruption. Compared with conventional mechanical circuit breakers, its advantages lie in faster fault response, reduced contact wear, higher control accuracy, better thermal performance, longer service life, and stronger suitability for high-voltage and high-power electrical systems. In 2025, production was approximately 850,000 units and the average price was USD 350 per unit. The industry's capacity utilization rate in 2025 was about 60% and the average gross margin was around 35%. Upstream, the key inputs include SiC MOSFET/JFET chips, DBC/AMB ceramic substrates, and packaging materials, with representative suppliers such as Wolfspeed, Infineon Technologies, and Rogers Corporation providing core wide-bandgap chips and high-performance substrate materials. The midstream segment focuses on semiconductor interruption topology design, power module integration, drive and protection circuit design, insulation coordination, thermal structure optimization, fault-current interruption testing, arc-free switching strategy, reliability validation, and automated assembly, which together determine breaking speed, voltage and current endurance, heat dissipation, protection accuracy, safety reliability, and cost competitiveness. Downstream, Semiconductor Circuit Breaker is mainly used in electric vehicles, microgrids, and data centers.

Semiconductor circuit breakers are circuit breakers based on semiconductor devices (e.g., transistors, thyristors, etc.) rather than traditional mechanical or electromagnetic components, and are designed to provide fast, accurate and efficient circuit protection. Compared to traditional mechanical circuit breakers, semiconductor circuit breakers are able to cut off the current in a very short period of time (usually microseconds), which significantly reduces the damage to the equipment caused by faults.

This report is a detailed and comprehensive analysis for global Semiconductor Circuit Breaker market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Semiconductor Circuit Breaker market size and forecasts, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Semiconductor Circuit Breaker market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Semiconductor Circuit Breaker market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Semiconductor Circuit Breaker market shares of main players, shipments in revenue (\$ Million), sales quantity (K Units), and ASP (US\$/Unit), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Semiconductor Circuit Breaker

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Semiconductor Circuit Breaker market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Siemens AG (Germany), Atom Power Inc. (USA), Eaton Corporation (Ireland), Sun.King Technology Group Limited (China), Astrol Electronic AG (Switzerland), Shenzhen HIITIO New Energy Co., Ltd. (China), Zhuhai Huizhong Energy Technology Co., Ltd. (China), Shanghai KingSi Power Technology Co., Ltd. (China), Guangdong Simply Environment & Energy Technology Co., Ltd. (China), Mianyang Herui Electronics Co., Ltd. (China), etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Semiconductor Circuit Breaker market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

750V

1200V

1700V

Others

Market segment by Circuit Current

Unidirectional DC Solid-State Circuit Breaker

Bidirectional DC Solid-State Circuit Breaker

Market segment by Rated Current

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global Semiconductor Circuit Breaker Consumption Value by Type:
2021 Versus 2025 Versus 2032

1.3.2 750V

1.3.3 1200V

1.3.4 1700V

1.3.5 Others

1.4 Market Analysis by Circuit Current

1.4.1 Overview: Global Semiconductor Circuit Breaker Consumption Value by Circuit
Current: 2021 Versus 2025 Versus 2032

1.4.2 Unidirectional DC Solid-State Circuit Breaker

1.4.3 Bidirectional DC Solid-State Circuit Breaker

1.5 Market Analysis by Rated Current

1.5.1 Overview: Global Semiconductor Circuit Breaker Consumption Value by Rated
Current: 2021 Versus 2025 Versus 2032

1.5.2 Current?16A

1.5.3 16A
