Abstracts

According to our (Global Info Research) latest study, the global Server Chipsets market size was valued at US\$ 481 million in 2025 and is forecast to a readjusted size of US\$ 1034 million by 2032 with a CAGR of 11.5% during review period.

A server chipset is a control chip used in tandem with a server processor platform. Its primary role is not general-purpose computing, but rather the coordination of connectivity, management, and reliability functions outside the CPU itself, integrating storage, peripherals, buses, security, and platform scheduling into a manufacturable, deployable, and maintainable server motherboard architecture. Based on official product pages, this category is usually tightly bound to a specific processor platform. Intel positions server chipsets as platform components that provide data protection, performance, security, virtualization, and power management, and its C741, aimed at servers, offers capabilities such as PCIe, SATA, USB, VT-d, RSTe, Node Manager, and TXT. Zhaoxin's ZX100S is positioned toward server and storage solutions, highlighting ECC memory support, I/O virtualization, hot plug, and strong expandability. AMD's SR5690 represents the discrete northbridge era, using PCIe, HyperTransport, IOMMU, multi-processor support, and RAS capabilities to deliver platform-level interconnect and virtualization support. Overall, server chipsets solve the problem of high-reliability connectivity and coordinated control outside the compute chip in a server platform. Typical applications include general-purpose servers, storage servers, industry information systems in sectors such as government and finance, and platform programs that require long-term stable supply. Their primary customers are OEMs, motherboard vendors, CPU ecosystem partners, and solution integrators. Common delivery forms include discrete chipsets or system-level solutions sold together with a processor platform, with value centered more on platform compatibility, expandability, manageability, and long-term maintenance than on pure compute uplift.

The most important change in the server chipset industry is not simply the increase in interface counts, but the evolution of platform control logic from the traditional northbridge and southbridge split toward a companion control system deeply tied to a processor platform. Intel's official website explicitly describes server chipsets as platform components that provide data protection, performance, security, virtualization, and power management. The current C741 still retains key capabilities including 20 PCIe Gen3 lanes, 20 SATA ports, 14 USB ports, VT-d, RSTe, Node Manager, and TXT, showing that in high-reliability server scenarios, discrete platform control chips have not fully disappeared. Instead, they have shifted from generic bridge chips to stable components serving specific ecosystems. Zhaoxin's ZX100S also focuses on server and storage solutions and highlights ECC, hot plug, I/O virtualization, and strong expandability, indicating that competition in server chipsets now centers on platform compatibility, peripheral organization, manageability, and long-term deliverability rather than acting as a substitute for CPU performance itself. Even in a historical product such as AMD's SR5690, the official material emphasizes IOMMU, RAS, HyperTransport, and multi-processor support, which shows that server chipsets have long played the role of platform-level interconnect, stability support, and virtualization enablement, and that this underlying function remains valid today.

On the demand side, the momentum of server chipsets is highly correlated with the construction of data centers, cloud infrastructure, and industry information systems, while AI-driven compute expansion is once again amplifying the importance of this foundational supporting layer. Synergy data shows that by the end of 2024 there were 1,136 hyperscale data centers globally, with the United States accounting for 54 percent of total capacity, and total capacity is forecast to double again in less than four years, with generative AI being a major reason for the increase in new scale. This means that as long as server nodes, storage nodes, and industry-specific computing platforms continue to expand, chips that organize I/O, storage connectivity, security isolation, and board-level management around processor platforms will continue to see rigid demand. In China, the National Data Administration has disclosed that East Data West Compute has formed eight national computing hub nodes and ten national data center clusters, while the National Development and Reform Commission and other departments released a green and low-carbon action plan for data centers in 2024 to optimize deployment, reduce energy use, and accelerate equipment renewal. These policies expand total server deployment on the one hand and raise requirements for reliable, low-power, and manageable platform companion chips on the other, meaning that demand comes not only from new compute buildout but also from existing data center upgrades, storage node retrofits, and the continued iteration of mission-critical enterprise and

government systems.

From a regional perspective, supply in the server chipset industry remains highly concentrated in vendors that possess processor platform ecosystems and system-level R&D capabilities, and the representative companies that can currently be directly verified through official product pages are mainly located in the United States and China. U.S. vendors still control mature server platform standardization capabilities and global ecosystem influence, while Chinese vendors are benefiting more from secure and controllable domestic IT substitution and sector-specific demand, pushing local server platform companion chips toward volume production and stronger ecosystems. On the policy side, the U.S. Department of Commerce states that the CHIPS and Science Act provides 50 billion dollars to revitalize the U.S. semiconductor industry, while the EU Chips Act sets a goal of raising Europe's global semiconductor market share to 20 percent by 2030. Major economies worldwide are therefore strengthening supply chain resilience and localization capacity. For the server chipset industry, this means that future competition will not be determined only by the parameters of a single chip, but by who can better embed into CPU platforms, motherboard design, system certification, and industry solution frameworks. As AI data centers, storage infrastructure, and domestic server platforms continue to expand, server chipsets, although a relatively foundational layer, still have a positive medium- to long-term outlook, especially for vendors with ecosystem binding capability, scenario adaptation capability, long-term supply capability, and policy alignment.

This report is a detailed and comprehensive analysis for global Server Chipsets market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Server Chipsets market size and forecasts, in consumption value (\$ Million), sales quantity (Million Units), and average selling prices (US\$/Unit), 2021-2032

Global Server Chipsets market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Million Units), and average selling prices (US\$/Unit), 2021-2032

Global Server Chipsets market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (Million Units), and average selling prices (US\$/Unit), 2021-2032

Global Server Chipsets market shares of main players, shipments in revenue (\$ Million), sales quantity (Million Units), and ASP (US\$/Unit), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Server Chipsets

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Server Chipsets market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Intel, AMD, Loongson Technology, Zhaoxin, Phytium Technology, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Server Chipsets market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Intel Platform

AMD Platform

Domestic CPU Platform

Market segment by CPU Ecosystem

General-Purpose Server

Storage Server

Server/PC Shared Platform

Market segment by Level of Integration

Discrete Chipset

Highly Integrated Chipset Set

Platform Companion Expansion Chip

Market segment by Application

Personal

Residential

Enterprise

Major players covered

Intel

AMD

Loongson Technology

Zhaoxin

Phytium Technology

Market segment by region, regional analysis covers

North America (United States, Canada, and Mexico)

Europe (Germany, France, United Kingdom, Russia, Italy, and Rest of Europe)

Asia-Pacific (China, Japan, Korea, India, Southeast Asia, and Australia)

South America (Brazil, Argentina, Colombia, and Rest of South America)

Middle East & Africa (Saudi Arabia, UAE, Egypt, South Africa, and Rest of Middle East & Africa)

The content of the study subjects, includes a total of 15 chapters:

Chapter 1, to describe Server Chipsets product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top manufacturers of Server Chipsets, with price, sales quantity, revenue, and global market share of Server Chipsets from 2021 to 2026.

Chapter 3, the Server Chipsets competitive situation, sales quantity, revenue, and global market share of top manufacturers are analyzed emphatically by landscape contrast.

Chapter 4, the Server Chipsets breakdown data are shown at the regional level, to show the sales quantity, consumption value, and growth by regions, from 2021 to 2032.

Chapter 5 and 6, to segment the sales by Type and by Application, with sales market share and growth rate by Type, by Application, from 2021 to 2032.

Chapter 7, 8, 9, 10 and 11, to break the sales data at the country level, with sales quantity, consumption value, and market share for key countries in the world, from 2021 to 2026. and Server Chipsets market forecast, by regions, by Type, and by Application, with sales and revenue, from 2027 to 2032.

Chapter 12, market dynamics, drivers, restraints, trends, and Porters Five Forces analysis.

Chapter 13, the key raw materials and key suppliers, and industry chain of Server Chipsets.

Chapter 14 and 15, to describe Server Chipsets sales channel, distributors, customers, research findings and conclusion.

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global Server Chipsets Consumption Value by Type: 2021 Versus 2025 Versus 2032

1.3.2 Intel Platform

1.3.3 AMD Platform

1.3.4 Domestic CPU Platform

1.4 Market Analysis by CPU Ecosystem

1.4.1 Overview: Global Server Chipsets Consumption Value by CPU Ecosystem: 2021 Versus 2025 Versus 2032

1.4.2 General-Purpose Server

1.4.3 Storage Server

1.4.4 Server/PC Shared Platform

1.5 Market Analysis by Level of Integration

1.5.1 Overview: Global Server Chipsets Consumption Value by Level of Integration: 2021 Versus 2025 Versus 2032

1.5.2 Discrete Chipset

1.5.3 Highly Integrated Chipset Set

1.5.4 Platform Companion Expansion Chip

1.6 Market Analysis by Application

1.6.1 Overview: Global Server Chipsets Consumption Value by Application: 2021 Versus 2025 Versus 2032

1.6.2 Personal

1.6.3 Residential

1.6.4 Enterprise

1.7 Global Server Chipsets Market Size & Forecast

1.7.1 Global Server Chipsets Consumption Value (2021 & 2025 & 2032)

1.7.2 Global Server Chipsets Sales Quantity (2021-2032)

1.7.3 Global Server Chipsets Average Price (2021-2032)

2 MANUFACTURERS PROFILES

2.1 Intel

2.1.1 Intel Details

- 2.1.2 Intel Major Business
- 2.1.3 Intel Server Chipsets Product and Services
- 2.1.4 Intel Server Chipsets Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)
- 2.1.5 Intel Recent Developments/Updates
- 2.2 AMD
 - 2.2.1 AMD Details
 - 2.2.2 AMD Major Business
 - 2.2.3 AMD Server Chipsets Product and Services
 - 2.2.4 AMD Server Chipsets Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)
 - 2.2.5 AMD Recent Developments/Updates
- 2.3 Loongson Technology
 - 2.3.1 Loongson Technology Details
 - 2.3.2 Loongson Technology Major Business
 - 2.3.3 Loongson Technology Server Chipsets Product and Services
 - 2.3.4 Loongson Technology Server Chipsets Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)
 - 2.3.5 Loongson Technology Recent Developments/Updates
- 2.4 Zhaoxin
 - 2.4.1 Zhaoxin Details
 - 2.4.2 Zhaoxin Major Business
 - 2.4.3 Zhaoxin Server Chipsets Product and Services
 - 2.4.4 Zhaoxin Server Chipsets Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)
 - 2.4.5 Zhaoxin Recent Developments/Updates
- 2.5 Phytium Technology
 - 2.5.1 Phytium Technology Details
 - 2.5.2 Phytium Technology Major Business
 - 2.5.3 Phytium Technology Server Chipsets Product and Services
 - 2.5.4 Phytium Technology Server Chipsets Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)
 - 2.5.5 Phytium Technology Recent Developments/Updates

3 COMPETITIVE ENVIRONMENT: SERVER CHIPSETS BY MANUFACTURER

- 3.1 Global Server Chipsets Sales Quantity by Manufacturer (2021-2026)
- 3.2 Global Server Chipsets Revenue by Manufacturer (2021-2026)
- 3.3 Global Server Chipsets Average Price by Manufacturer (2021-2026)

3.4 Market Share Analysis (2025)

3.4.1 Producer Shipments of Server Chipsets by Manufacturer Revenue (\$MM) and Market Share (%): 2025

3.4.2 Top 3 Server Chipsets Manufacturer Market Share in 2025

3.4.3 Top 6 Server Chipsets Manufacturer Market Share in 2025

3.5 Server Chipsets Market: Overall Company Footprint Analysis

3.5.1 Server Chipsets Market: Region Footprint

3.5.2 Server Chipsets Market: Company Product Type Footprint

3.5.3 Server Chipsets Market: Company Product Application Footprint

3.6 New Market Entrants and Barriers to Market Entry

3.7 Mergers, Acquisition, Agreements, and Collaborations

4 CONSUMPTION ANALYSIS BY REGION

4.1 Global Server Chipsets Market Size by Region

4.1.1 Global Server Chipsets Sales Quantity by Region (2021-2032)

4.1.2 Global Server Chipsets Consumption Value by Region (2021-2032)

4.1.3 Global Server Chipsets Average Price by Region (2021-2032)

4.2 North America Server Chipsets Consumption Value (2021-2032)

4.3 Europe Server Chipsets Consumption Value (2021-2032)

4.4 Asia-Pacific Server Chipsets Consumption Value (2021-2032)

4.5 South America Server Chipsets Consumption Value (2021-2032)

4.6 Middle East & Africa Server Chipsets Consumption Value (2021-2032)

5 MARKET SEGMENT BY TYPE

5.1 Global Server Chipsets Sales Quantity by Type (2021-2032)

5.2 Global Server Chipsets Consumption Value by Type (2021-2032)

5.3 Global Server Chipsets Average Price by Type (2021-2032)

6 MARKET SEGMENT BY APPLICATION

6.1 Global Server Chipsets Sales Quantity by Application (2021-2032)

6.2 Global Server Chipsets Consumption Value by Application (2021-2032)

6.3 Global Server Chipsets Average Price by Application (2021-2032)

7 NORTH AMERICA

7.1 North America Server Chipsets Sales Quantity by Type (2021-2032)

7.2 North America Server Chipsets Sales Quantity by Application (2021-2032)

7.3 North America Server Chipsets Market Size by Country

7.3.1 North America Server Chipsets Sales Quantity by Country (2021-2032)

7.3.2 North America Server Chipsets Consumption Value by Country (2021-2032)

7.3.3 United States Market Size and Forecast (2021-2032)

7.3.4 Canada Market Size and Forecast (2021-2032)

7.3.5 Mexico Market Size and Forecast (2021-2032)

8 EUROPE

8.1 Europe Server Chipsets Sales Quantity by Type (2021-2032)

8.2 Europe Server Chipsets Sales Quantity by Application (2021-2032)

8.3 Europe Server Chipsets Market Size by Country

8.3.1 Europe Server Chipsets Sales Quantity by Country (2021-2032)

8.3.2 Europe Server Chipsets Consumption Value by Country (2021-2032)

8.3.3 Germany Market Size and Forecast (2021-2032)

8.3.4 France Market Size and Forecast (2021-2032)

8.3.5 United Kingdom Market Size and Forecast (2021-2032)

8.3.6 Russia Market Size and Forecast (2021-2032)

8.3.7 Italy Market Size and Forecast (2021-2032)

9 ASIA-PACIFIC

9.1 Asia-Pacific Server Chipsets Sales Quantity by Type (2021-2032)

9.2 Asia-Pacific Server Chipsets Sales Quantity by Application (2021-2032)

9.3 Asia-Pacific Server Chipsets Market Size by Region

9.3.1 Asia-Pacific Server Chipsets Sales Quantity by Region (2021-2032)

9.3.2 Asia-Pacific Server Chipsets Consumption Value by Region (2021-2032)

9.3.3 China Market Size and Forecast (2021-2032)

9.3.4 Japan Market Size and Forecast (2021-2032)

9.3.5 South Korea Market Size and Forecast (2021-2032)

9.3.6 India Market Size and Forecast (2021-2032)

9.3.7 Southeast Asia Market Size and Forecast (2021-2032)

9.3.8 Australia Market Size and Forecast (2021-2032)

10 SOUTH AMERICA

10.1 South America Server Chipsets Sales Quantity by Type (2021-2032)

10.2 South America Server Chipsets Sales Quantity by Application (2021-2032)

10.3 South America Server Chipsets Market Size by Country

10.3.1 South America Server Chipsets Sales Quantity by Country (2021-2032)

10.3.2 South America Server Chipsets Consumption Value by Country (2021-2032)

10.3.3 Brazil Market Size and Forecast (2021-2032)

10.3.4 Argentina Market Size and Forecast (2021-2032)

11 MIDDLE EAST & AFRICA

11.1 Middle East & Africa Server Chipsets Sales Quantity by Type (2021-2032)

11.2 Middle East & Africa Server Chipsets Sales Quantity by Application (2021-2032)

11.3 Middle East & Africa Server Chipsets Market Size by Country

11.3.1 Middle East & Africa Server Chipsets Sales Quantity by Country (2021-2032)

11.3.2 Middle East & Africa Server Chipsets Consumption Value by Country
(2021-2032)

11.3.3 Turkey Market Size and Forecast (2021-2032)

11.3.4 Egypt Market Size and Forecast (2021-2032)

11.3.5 Saudi Arabia Market Size and Forecast (2021-2032)

11.3.6 South Africa Market Size and Forecast (2021-2032)

12 MARKET DYNAMICS

12.1 Server Chipsets Market Drivers

12.2 Server Chipsets Market Restraints

12.3 Server Chipsets Trends Analysis

12.4 Porters Five Forces Analysis

12.4.1 Threat of New Entrants

12.4.2 Bargaining Power of Suppliers

12.4.3 Bargaining Power of Buyers

12.4.4 Threat of Substitutes

12.4.5 Competitive Rivalry

13 RAW MATERIAL AND INDUSTRY CHAIN

13.1 Raw Material of Server Chipsets and Key Manufacturers

13.2 Manufacturing Costs Percentage of Server Chipsets

13.3 Server Chipsets Production Process

13.4 Industry Value Chain Analysis

14 SHIPMENTS BY DISTRIBUTION CHANNEL

14.1 Sales Channel

14.1.1 Direct to End-User

14.1.2 Distributors

14.2 Server Chipsets Typical Distributors

14.3 Server Chipsets Typical Customers

15 RESEARCH FINDINGS AND CONCLUSION

16 APPENDIX

16.1 Methodology

16.2 Research Process and Data Source

16.3 Disclaimer

I would like to order

Product name: Global Server Chipsets Market 2026 by Manufacturers, Regions, Type and Application, Forecast to 2032

Product link: <https://marketpublishers.com/r/GFCDE0B15EF0EN.html>

Price: US\$ 3,480.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/GFCDE0B15EF0EN.html>
