Abstracts

The global Service Resource Planning (SAP) market size is expected to reach \$ 781.8 million by 2029, rising at a market growth of 5.7% CAGR during the forecast period (2023-2029).

SRP provides the systems basis for initiation, planning, resource management, execution, close and control of projects and services. An SRP solution combines the best elements of previous standalone business applications for accounting (ERP), client relationship management (CRM) and professional services automation (PSA) to support the entire bid-to-bill lifecycle of project- and service-driven organizations.

Combining the best of CRM, PSA and ERP applications, Service Resource Planning (SRP) is a strategic planning tool for executives to gain an understanding of current and future business operations. The integration of these core applications provides the systems background for visibility and control of all aspects of the business.

This report studies the global Service Resource Planning (SAP) demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Service Resource Planning (SAP), and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2022 as the base year.
