Abstracts

According to our (Global Info Research) latest study, the global Servo Motor Core market size was valued at US\$ 7340 million in 2024 and is forecast to a readjusted size of USD 10490 million by 2031 with a CAGR of 5.3% during review period.

The servo motor core is a key component in a servo motor, typically made from high magnetic permeability materials such as silicon steel sheets. The main function of the core is to provide a path for the magnetic field in the motor, improving the motor's efficiency and torque output. The servo motor core works by interacting with the current in the winding to generate a rotating magnetic field, which drives the motor's rotation. The design quality of the core directly influences the motor's performance, particularly in terms of precision control, response speed, and stability.

As automation, robotics, and high-precision equipment demand continue to grow, the market for servo motor cores is steadily expanding. Particularly in industrial manufacturing, precision engineering, and electronics, the application of servo motors is becoming more widespread. It is expected that the global demand for servo motors will continue to rise in the coming years, driving the growth of the servo motor core market. With advancements in technology, core materials and manufacturing processes are continuously improving, and the emergence of new high-performance cores is further enhancing the efficiency and precision of servo motors. In major manufacturing countries such as China, the U.S., and Japan, the demand for servo motor cores is especially strong, and with the advancement of industrial upgrades and smart manufacturing, the market outlook is promising.

This report is a detailed and comprehensive analysis for global Servo Motor Core

market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Servo Motor Core market size and forecasts, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2020-2031

Global Servo Motor Core market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2020-2031

Global Servo Motor Core market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2020-2031

Global Servo Motor Core market shares of main players, shipments in revenue (\$ Million), sales quantity (K Units), and ASP (US\$/Unit), 2020-2025

The Primary Objectives in This Report Are:

- To determine the size of the total market opportunity of global and key countries
- To assess the growth potential for Servo Motor Core
- To forecast future growth in each product and end-use market
- To assess competitive factors affecting the marketplace

This report profiles key players in the global Servo Motor Core market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Mitsui High-tec, Eurotranciatuura SpA, Changying Xinzhi Technology Co., Ltd., R.bourgeois, Suzhou Fine-Stamping Machinery & Technology Co., Ltd, Tempel, POSCO Mobility, JFE Shoji, Jiangsu Tongda Power Technology Co.,Ltd., Changzhou Shengli Electrical Machine, etc.

This report also provides key insights about market drivers, restraints, opportunities,

new product launches or approvals.

Market Segmentation

Servo Motor Core market is split by Type and by Application. For the period 2020-2031, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global Servo Motor Core Consumption Value by Type: 2020 Versus 2024 Versus 2031

1.3.2
