Abstracts

According to our (Global Info Research) latest study, the global Ship Valuation Services market size was valued at US\$ 588 million in 2025 and is forecast to a readjusted size of US\$ 911 million by 2032 with a CAGR of 6.5% during review period.

Ship valuation services refer to the assessment and appraisal of the market value, insured value, or depreciated value of ships and their related assets by professional institutions or registered ship valuers. Services typically include technical condition inspections, age assessments, market price analysis, maintenance and operating cost estimations, and legal and compliance reviews. Ship valuation is widely used in ship sales and purchases, financing and mortgages, insurance underwriting, lease agreements, and maritime arbitration, providing shipowners, investors, insurance companies, and financial institutions with scientific and reliable decision-making support.

With the development of the global shipping market and the increase in ship asset transactions, the demand for ship valuation services continues to grow. Fluctuations in international trade, the expansion of ship financing and leasing businesses, and the standardization of the ship insurance market have all driven the application of professional valuation services. Furthermore, as ship technology evolves and regulatory requirements increase, accurately assessing ship value becomes more complex, making the professionalism and added value of valuation services increasingly important. In the future, the application of digital valuation, remote inspection, and big data analytics technologies will improve the efficiency and accuracy of ship valuation, further expanding the market size.

This report is a detailed and comprehensive analysis for global Ship Valuation Services market. Both quantitative and qualitative analyses are presented by company, by region & country, by Valuation Purpose and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Ship Valuation Services market size and forecasts, in consumption value (\$ Million), 2021-2032

Global Ship Valuation Services market size and forecasts by region and country, in consumption value (\$ Million), 2021-2032

Global Ship Valuation Services market size and forecasts, by Valuation Purpose and by Application, in consumption value (\$ Million), 2021-2032

Global Ship Valuation Services market shares of main players, in revenue (\$ Million), 2021-2026

The Primary Objectives in This Report Are:

- To determine the size of the total market opportunity of global and key countries
- To assess the growth potential for Ship Valuation Services
- To forecast future growth in each product and end-use market
- To assess competitive factors affecting the marketplace

This report profiles key players in the global Ship Valuation Services market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Compass Maritime, Karatzas Marine Advisors & Co., Farohar Enterprizes, Weselmann, Clarksons Valuations, Century Marine Services Ltd, Drewry, Marine Services Group, Revalua, DSB Offshore, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.
