Abstracts

The global Shisha Outsourcing Service market size is expected to reach \$ 662 million by 2032, rising at a market growth of 6.5% CAGR during the forecast period (2026-2032).

Shisha outsourcing service refers to the provision of end-to-end operational services related to shisha by third-party professional service providers for hotels, restaurants, cafes, bars, nightclubs, beach clubs, weddings, private parties, corporate events, and home settings. This typically includes shisha pipe and accessory configuration, supply of tobacco paste or herbal substitutes, charcoal management, flavor blending, on-site shisha operator/waitress deployment, equipment cleaning and disinfection, order and inventory management, event setup, B2B on-site operations, revenue sharing or fixed service fee settlement, etc. The commercial essence of this service is not the retail of shisha pipes or shisha tobacco, but rather the professional outsourcing of the shisha consumption experience, on-site operation, safety and hygiene, personnel training, and compliant operation.

From a demand structure perspective, the incremental growth of hookah outsourcing services mainly comes from three scenarios: First, hotels, restaurants, nightclubs, and beach clubs are introducing hookah operations to increase average transaction value, extend stay time, and enhance nighttime social appeal; second, weddings, corporate events, birthday parties, private parties, and yacht parties are using hookah as an experiential value-added service; and third, high-end families and VIP clients are increasing their demand for in-home hookah services, customized flavors, and professional hookah therapists.
