Silicone-free scalp care is a method of scalp care that focuses on the use of silicone-free formulations. Silicone is a common chemical that is often added to many shampoos and hair care products to give hair a smooth and soft appearance. However, some people think that long-term use of products containing silicone oil may leave residues on the scalp and hair, which will increase the burden on the hair and affect the health of the scalp.

The main idea of ??silicone-free scalp care is to use silicone-free shampoo and hair care products to promote the health of the scalp and reduce the accumulation of residue while maintaining the natural state of the hair. This approach emphasizes natural care and avoids an over-reliance on chemical ingredients, resulting in a cleaner and lighter scalp.
