Abstracts

Single vision lenses have just one prescription, distributing focus evenly over the entire surface of the lens. They are particularly suitable for correcting myopia (nearsightedness), hyperopia (farsightedness), astigmatism and so on.

Scope of the Report:

This report focuses on the Single Vision Lenses in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. The industry is expected to remain innovation-led, with frequent acquisitions and strategic alliances adopted as the key strategies by the players to increase their industry presence. Meanwhile, optimize product mix and further develop value-added capabilities to maximize margins.

The Asia Pacific region is estimated to be the key market over the forecast period, owing to the increasing demand. All manufactures in the world are committed to the improvement of product. These two years, some of Chinese manufactures can almost catch up with the world's leading technology too. Most technologies are developed by the manufacturers instead of importing from other companies.

The worldwide market for Single Vision Lenses is expected to grow at a CAGR of roughly 0.1% over the next five years, will reach 6840 million US\$ in 2023, from 6800 million US\$ in 2017, according to a new GIR (Global Info Research) study.
