Abstracts

Skateboarding is an action sport which involves riding and performing tricks using a skateboard, as well as a recreational activity, an art form, a entertainment industry job, and a method of transportation.

Scope of the Report:

This report focuses on the Skateboarding Equipments in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The skateboards segment dominated the market and accounted for more than 38% of the market share in terms of revenue. Skateboards are available in two different types, longboard, and shortboard. While shortboards are mostly used for performing skateboarding tricks, the longboards are used for cruising and racing. Moreover, the growing popularity of electric skateboards will also contribute to the growth of this market segment over the next few years.

In terms of geography, the Americas dominated the global skateboarding equipment market and is expected to reach over USD 3 billion by 2023. Factors such as the high popularity of the sport in the region, especially Brazil and the US, will aid in the growth of this market over the forecast period.

The worldwide market for Skateboarding Equipments is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.

Market Segment by Manufacturers, this report covers
