Abstracts

Slot machines are casino gambling machines with three or more reels which spin when a button is pushed. Slot machines are also known as one-armed bandits because they were originally operated by one lever on the side of the machine as opposed to a button on the front panel, and because of their ability to leave the player in debt and impoverished

SCOPE OF THE REPORT:

This report focuses on the Slot Machines in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. First, for industry structure analysis, the Slot Machine industry is relatively concentrated. These manufacturers ranging from large multinational corporations to small privately owned companies compete in this industry. The top five producers account for about 70% of the revenue market. Regionally, North America is the biggest market slot machines.

Second, North America occupied 41.56% of the consumption market in 2016. It is followed by Europe and Japan, which respectively have around 19.52% and 9.21% of the global total industry. Other countries have a small amount of consumption.

Third, for price trend analysis, a key variable in the performance of Slot Machine producers is raw material costs, specifically the speed at which any increase can be passed through to customers.

The worldwide market for Slot Machines is expected to grow at a CAGR of roughly 5.5% over the next five years, will reach 4450 million US\$ in 2023, from 3230 million
