Abstracts

This chip records a string of 15-digit international unique digital codes. With this string of numbers, the staff can obtain the dog owner's name, contact information, pet vaccination and other information through professional equipment. At present, the life of the chip is about 15 years, which exceeds the life of most pet dogs. Once injected, it will be worry-free for life. Experts say the chip could prove dog owner identity, help find lost dogs, and prevent abandoned pets and non-vaccination.
