According to our (Global Info Research) latest study, the global Smart Vapes market size was valued at US$ 286 million in 2025 and is forecast to a readjusted size of US$ 509 million by 2032 with a CAGR of 8.7% during review period.

A smart vape is a revolutionary vaping device equipped with advanced technology that enhances the vaping experience but doesn't compromise on portability or all the other features that you'd expect from a disposable vape. Unlike traditional vapes, smart vapes are designed to offer users a range of intelligent features and capabilities, such as customizable settings, intuitive controls, and real-time monitoring. These devices are often equipped with smart chips or processors that enable them to communicate with other devices or apps, providing users with valuable insights into their vaping habits and preferences.

This report is a detailed and comprehensive analysis for global Smart Vapes market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Sales Channel. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Smart Vapes market size and forecasts, in consumption value ($ Million), sales quantity (K Units), and average selling prices (US$/Unit), 2021-2032
