## Abstracts

The global Smartphone Cover Glass market size is expected to reach \$ 1731 million by 2032, rising at a market growth of 1.3% CAGR during the forecast period (2026-2032).

Smartphone Cover Glass is usually aluminum silicate material. With screen sizes increasing, smartphones continue to lead total area demand in the cover glass market; however, as the markets for smartphones and tablets mature, cover glass industry revenue growth is declining from 39 percent year over year in 2013 to around 10 percent in 2017. While the overall cover glass market growth is falling, increasing popularity of the Apple Watch is leading to growth in smart watch cover glass shipments.

The Asia-Pacific region is the leading market for smartphone cover glass, accounting for more than 95% of the market.

Corning, AGC and NEG are the main manufacturers. Corning is the world's largest, with about 70% of the market.

This report studies the global Smartphone Cover Glass production, demand, key manufacturers, and key regions.
