## Abstracts

According to our (Global Info Research) latest study, the global Socks market size was valued at US\$ 24630 million in 2025 and is forecast to a readjusted size of US\$ 29530 million by 2032 with a CAGR of 2.7% during review period.

Socks are a type of clothing worn on the feet, primarily intended to reduce friction between the feet and the external environment, while also providing warmth and comfort. They are made from cotton, synthetic fibers, or synthetic materials and offer protection, warmth, comfort, and suitability for different occasions and activities. Choosing the right socks is very important for maintaining the health and comfort of the feet. In addition to basic protection and comfort, some socks feature special materials or designs, such as antibacterial, sweat-absorbing, and odor-resistant functions, making them suitable for professions or individuals who need to wear socks for extended periods.

Consumers are increasingly seeking socks that offer enhanced comfort and performance features, such as moisture-wicking, anti-odor, and compression properties. Innovations in textile technology have led to the development of high-performance materials and smart fabrics that provide better support, breathability, and durability. Additionally, the trend towards sustainability is influencing the market, with manufacturers focusing on eco-friendly materials like organic cotton, bamboo, and recycled fibers.

The fashion aspect of socks is also a significant driver of market growth. Socks have evolved from basic necessities to fashion statements, with a wide variety of designs, colors, and patterns catering to different consumer preferences. The rise of social media and influencer culture has further amplified the trend, with unique and stylish socks

gaining popularity among younger consumers.

E-commerce platforms are playing a crucial role in the distribution of socks, providing consumers with easy access to a diverse range of products and brands. The convenience of online shopping, coupled with the availability of customization options, has boosted the sales of socks globally.

Moreover, the growing participation in sports and fitness activities is driving the demand for specialized athletic socks that enhance performance and prevent injuries. Brands are increasingly collaborating with sports personalities and fitness influencers to promote their products, further fueling market growth.

Overall, the socks market is poised for continued expansion, driven by consumer demand for comfort, fashion, and sustainability. The emphasis on innovation and eco-friendly practices will likely shape the future trends in this industry.

This report is a detailed and comprehensive analysis for global Socks market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Sales Channel. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

### **Key Features:**

Global Socks market size and forecasts, in consumption value (\$ Million), sales quantity (M Units), and average selling prices (US\$/Unit), 2021-2032

Global Socks market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (M Units), and average selling prices (US\$/Unit), 2021-2032

Global Socks market size and forecasts, by Type and by Sales Channel, in consumption value (\$ Million), sales quantity (M Units), and average selling prices (US\$/Unit), 2021-2032

Global Socks market shares of main players, shipments in revenue (\$ Million), sales quantity (M Units), and ASP (US\$/Unit), 2021-2026

**The Primary Objectives in This Report Are:**

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Socks

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Socks market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Interloop Limited, Jasan Holding Group, Zhejiang Fenli Group, Zhejiang Mengna Socks & Hosiery, Bonas, Wuhan Maoren Garments Stock, Atsugi, Renfro Brands, Huafu Fashion, Hanesbrands, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

**Market Segmentation**

Socks market is split by Type and by Sales Channel. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Sales Channel in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.
