Abstracts

The global Softgel Capsules market size is expected to reach \$ 6464 million by 2032, rising at a market growth of 4.2% CAGR during the forecast period (2026-2032).

Soft Gelatin Capsules, also called softgels, are manufactured as single piece capsule shell. It is a type of capsule with a solid outer shell and inner surrounding a liquid or semi-solid (inner fill) active ingredient that can be incorporated into the outer shell, the inner fill, or both.

Global softgel capsules key players include Catalent, Aenova, Nature's Bounty, Procaps, Patheon (Thermo Fisher Scientific), etc. Global top 5 manufacturers hold a market share about 50%. North America accounts for the most market share, which have a share over 35%, followed by Europe. In terms of product, gelatin type is the largest segment, with a market share over 85%. And in terms of application, the largest application is health supplements, followed by pharmaceutical.

Rx and OTC softgel is much expensive than the empty capsules, so in the developed areas, the usage and application share of Rx and OTC softgel is much higher than that of underdeveloped ones. The price gap between the Rx and OTC softgel to the Nutra ones is smaller than that of underdeveloped ones.

Some Rx and OTC softgel need non-gelatin capsules only, so market share of Rx and OTC product used in non-gelatin is bigger than the gelatin ones.

This report studies the global Softgel Capsules production, demand, key manufacturers, and key regions.
