Abstracts

Solar street furniture is a type of outdoor furniture designed based on modern technology and combined with environmental protection and intelligent needs. This type of furniture usually has solar charging or power supply functions, which can provide convenient services to citizens while also helping to reduce energy consumption and environmental pollution.

According to our (Global Info Research) latest study, the global Solar Street Furniture market size was valued at US\$ 159 million in 2023 and is forecast to a readjusted size of USD 443 million by 2030 with a CAGR of 15.0% during review period.

With the advancement of technology, solar energy conversion efficiency will continue to increase, further improving the functionality and performance of solar street furniture. At the same time, the application of new materials and new processes will also promote the design of solar street furniture to be more beautiful, comfortable and durable.

This report is a detailed and comprehensive analysis for global Solar Street Furniture market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2024, are provided.

Key Features:

Global Solar Street Furniture market size and forecasts, in consumption value (\$ Million), sales quantity (Units), and average selling prices (US\$/Unit), 2019-2030

Global Solar Street Furniture market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Units), and average selling prices (US\$/Unit), 2019-2030

Global Solar Street Furniture market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (Units), and average selling prices (US\$/Unit), 2019-2030

Global Solar Street Furniture market shares of main players, shipments in revenue (\$ Million), sales quantity (Units), and ASP (US\$/Unit), 2019-2024

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Solar Street Furniture

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Solar Street Furniture market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include EnerFusion Inc, EnGoPlanet, Include Ltd, InfraMarks, iSun Energy, Metsolar, SEEDiA, Strawberry Energy, Sunbolt, SunVilla Corporation, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Solar Street Furniture market is split by Type and by Application. For the period 2019-2030, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This

analysis can help you expand your business by targeting qualified niche markets.
