Abstracts

The global Solid Epoxy Resin market size is expected to reach \$ 3433 million by 2032, rising at a market growth of 5.0% CAGR during the forecast period (2026-2032).

Epoxy resins are thermosetting resins, meaning that they do not develop useful properties until they are reacted with suitable cross-linking agents. There is a limited amount of high-molecular-weight epoxy resin that forms useful properties as a thermoplastic coating. Epoxy resins can be used in various forms, including as liquids (liquid epoxy resins [LERs]) and solids, as well as dissolved in solvents including water and organic solvents. This report studies the Solid Epoxy Resin market. In 2024, global Solid Epoxy Resin sales reached approximately 865.9 kilotons, with an average global market price of around US\$ 2,536 per ton.

The solid epoxy resin industry continues to grow under strong demand from new energy, electrical and electronic fields, but faces challenges such as environmental compliance, raw material fluctuations and international competition.

The demand for new energy industry is growing, and there is a strong demand for high-performance epoxy resins in fields such as wind turbine blades and new energy vehicle battery packaging.

5G base stations and AI servers drive the demand for high-frequency copper clad laminates (CCLs), driving the growth of the electronic-grade epoxy resin market.

The share of bio-based epoxy resins (bio-based carbon content ? 40%) in the high-end market has increased, and the penetration rate of water-based epoxy resins in the coating field has increased.

This report studies the global Solid Epoxy Resin production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Solid Epoxy Resin and provides market size (US\$ million) and Year-over-Year (YoY) Growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Solid Epoxy Resin that contribute to its increasing demand across many markets.
