Abstracts

A spa is a therapeutic water treatment. People go to the spa to feel as though they’re the center of attention. With spa management software, customers can book their own appointments online. These suites also provide businesses with marketing and automation capabilities that help them attract and retain more customers.

SCOPE OF THE REPORT:

The introduction of specialized spa management software is having a huge impact on the appointment-based industry. With spa management software, customers can book their own appointments online. These suites also provide businesses with marketing and automation capabilities that help them attract and retain more customers. The marketplace for products and services is shifting, with more people preferring to spend their money on “experiences” rather than just buying more “stuff.”
Currently, the market concentration rate is low. Regional characteristics of products are obvious. Leading international players include Book4Time, Mindbody, Phorest, Millennium, Jonas Software etc. There are many small local players spread in each separate country, to meet the needs of local spas.
The global Spa Management Software market is valued at 230 million USD in 2018 and is expected to reach 570 million USD by the end of 2024, growing at a CAGR of 20.1% between 2019 and 2024.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.

North America, especially The United States, will still play an important role which
