According to our (Global Info Research) latest study, the global Special Steel Wire Rope market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

Special steel wire rope refers to special steel wire rope specially used in specific environment or field or important steel wire rope with high use requirements and complex use environment.

Standard ropes often do not meet the high requirements of many applications of wire ropes. Higher demands for rope lifetime, breaking strengths, rotational stability, flexibility, structural stability and spooling behavior can only be fulfilled by special wire ropes. It is for these reasons that many engineers and end users resort to special steel wire rope.
