Abstracts

The global Sport and Racing Games market size is expected to reach \$ million by 2030, rising at a market growth of % CAGR during the forecast period (2024-2030).

Racing games are a video game genre in which the player participates in a racing competition. They may be based on anything from real-world racing leagues to fantastical settings. They are distributed along a spectrum between more realistic racing simulations and more fantastical arcade-style racing games. Kart racing games emerged in the 1990s as a popular sub-genre of the latter. Racing games may also fall under the category of sports video games.

This report studies the global Sport and Racing Games demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Sport and Racing Games, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2023 as the base year. This report explores demand trends and competition, as well as details the characteristics of Sport and Racing Games that contribute to its increasing demand across many markets.
