Abstracts

The global Sports and Fitness Biohacking market size is expected to reach \$ million by 2029, rising at a market growth of % CAGR during the forecast period (2023-2029).

Increasing health awareness is expected to drive the market. Biohacking plays a crucial role in improving physical and mental health. It enhances overall health and stability, which further optimizes body functions and reduces depression symptoms.

Biohacking is the process of body augmentation through mediation with the intention of improving physical capabilities, well-being, and overall fitness of the body. It aims at achieving a longer lifespan, increased physical & mental ability, and improve overall health. Biohacking is suitable for drug testing, synthetic biology, forensic science, diagnosis & treatment of ailments, and genetic engineering.

Biohacking methods including nanotechnology, gene therapy, and synthetic biology are used to improve athletic performances. Several biohacking techniques are being extensively used by professional athletes to enhance their physical capabilities and overall performance. These techniques include practices such as using ketones to supercharge body energy resources, releasing psoas muscles for immediate calm, getting more energy output by increasing NAD⁺ (Nicotinamide Adenine Dinucleotide) levels, and focusing during interval workouts.

This report studies the global Sports and Fitness Biohacking demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Sports and Fitness Biohacking, and provides market size (US\$ million) and Year-over-Year (YoY)

growth, considering 2022 as the base year. This report explores demand trends and competition, as well as details the characteristics of Sports and Fitness Biohacking that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global Sports and Fitness Biohacking total market, 2018-2029, (USD Million)

Global Sports and Fitness Biohacking total market by region & country, CAGR, 2018-2029, (USD Million)

U.S. VS China: Sports and Fitness Biohacking total market, key domestic companies and share, (USD Million)

Global Sports and Fitness Biohacking revenue by player and market share 2018-2023, (USD Million)

Global Sports and Fitness Biohacking total market by Type, CAGR, 2018-2029, (USD Million)

Global Sports and Fitness Biohacking total market by Application, CAGR, 2018-2029, (USD Million).

This reports profiles major players in the global Sports and Fitness Biohacking market based on the following parameters – company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include BRAINEFFECT, Bulletproof 360, Inc., Health Via Modern Nutrition Inc., Innovative Medicine, Ixcela, Inc., MOODMETRIC, NEUROHACKER COLLECTIVE, LLC, SynBioBeta and The ODIN, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals, COVID-19 and Russia-Ukraine War Influence.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the World Sports and Fitness Biohacking market.

Detailed Segmentation:

Each section contains quantitative market data including market by value (US\$

Millions), by player, by regions, by Type, and by Application. Data is given for the years 2018-2029 by year with 2022 as the base year, 2023 as the estimate year, and 2024-2029 as the forecast year.
