Abstracts

Sports nutrition products include sports drinks, supplements, and food that include protein powders, Isotonic drink powder, capsule/tablets (creatine/branched chain amino acids and others), supplement powder, ready-to-drink protein drinks, carbohydrate drinks, protein bars, carbohydrate/energy bars and other supplements.

Scope of the Report:

This report focuses on the Sports Nutrition in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The sports nutrition market is expected to witness significant growth within the forecast period on account of increasing demand from recently emerging lifestyle and recreational users. In addition, increasing health awareness coupled with increasing number of health clubs and fitness centers is also expected to boost this market within the forecast period.

Rapid urbanization and increasing disposable income are also expected to boost growth in the sports nutrition market. The high number of cheap counterfeit products affects sales of reputed companies and therefore, availability of these products is expected to restrict the growth of sports nutrition market. Expansion of distribution channels is also expected to be an opportunity for growth in this market in coming years.

The worldwide market for Sports Nutrition is expected to grow at a CAGR of roughly 7.7% over the next five years, will reach 4300 million US\$ in 2023, from 2760 million US\$ in 2017, according to a new GIR (Global Info Research) study.
