## Abstracts

According to our (Global Info Research) latest study, the global Stroller for Pet market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period.

The trend of developing strollers for pets has been growing in recent years. Pet owners are increasingly looking for ways to provide comfort and convenience for their furry friends, and strollers have become a popular solution. One of the main reasons for this trend is the increasing number of pet owners who treat their pets as family members. They want to include their pets in various activities, including outdoor adventures and shopping trips. However, not all pets can keep up with their owners' pace or endure long walks. Pet strollers allow owners to bring their pets along without worrying about their comfort or safety. Another factor driving the development of pet strollers is the growing number of elderly or disabled pet owners. These individuals may have limited mobility and find it challenging to take their pets for walks. Pet strollers provide a way for them to continue spending quality time with their pets and enjoy the outdoors together.

The Global Info Research report includes an overview of the development of the Stroller for Pet industry chain, the market status of Dog (Foldable Stroller, Non-folding Stroller), Cat (Foldable Stroller, Non-folding Stroller), and key enterprises in developed and developing market, and analysed the cutting-edge technology, patent, hot applications and market trends of Stroller for Pet.
