Abstracts

Sugar-free confectionery consists of a range of products that are totally devoid of sugar and contain artificial sweeteners, which impart taste to them. Sugar-free confectionery products form only a small part of the global confectionery market. They are generally consumed as healthy alternatives to sugar-based confectionery products.

Scope of the Report:

This report focuses on the Sugar-free Confectionery in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The shifting in consumer preferences toward premium products is one of the primary growth factors for the sugar-free confectionery market. To increase their revenue shares, several food and beverage manufacturers are increasingly focusing on niche products such as sugar-free food and confectionery. With the rise in health and wellness awareness consumers are also willing to pay more for low-calorie and low-fat food products. For instance, more than 90% consumers in the US are ready to pay more for healthier foods. Similarly, more than 80% of the Australian consumers are ready to pay more for healthier snacks and confectionery. This will induce vendors to launch premium products in the sugar-free segment.

The worldwide market for Sugar-free Confectionery is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
