### **SCOPE OF THE REPORT:**

This report focuses on the Sugar-Free Food and Beverages in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. The increasing innovations in the category of alternative sweeteners and the rising popularity of natural alternative sweeteners are expected to drive the growth prospects for the global sugar-free food and beverages market until the end of 2023. One of the major factors responsible for motivating the manufacturers to come up with innovative offerings is the growing demand for low-calorie and sugar-free foods from the consumer's end.

The Americas accounted for the majority market share during 2017 and is expected to continue to dominate the market until the end of 2023. Some of the major factors responsible for the market's growth in the region is the increasing demand for calorie-free sweeteners such as stevia in the US and Brazil, increasing aging population in the region, rising health issues such as obesity and diabetes, presence of numerous players, and the increasing rate of competition in the market.

The worldwide market for Sugar-Free Food and Beverages is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from
