According to our (Global Info Research) latest study, the global Sulforaphane market size was valued at US\$ 6.06 million in 2025 and is forecast to a readjusted size of US\$ 8.83 million by 2032 with a CAGR of 5.6% during review period.

Sulforaphane (SFN), also known as sulforaphane, is an isothiocyanate obtained by hydrolysis of glucosinolate by myrosinase in plants, and often exists in a stable form of glucoraphanin. Sulforaphane appears as a light yellow powder or a yellow-brown oily liquid. It is abundant in cruciferous vegetables and bean sprouts, such as broccoli, kale, cauliflower, northern round carrots, cabbage, kale, etc., among which broccoli sprouts have the highest concentration of sulforaphane. Sulforaphane, as an important anticancer compound in cruciferous vegetables (such as broccoli, Brussels sprouts, cabbage, etc.), is widely used in health products, medicines, nutritional supplements, functional foods, beverages and cosmeceuticals due to its significant antioxidant, anti-inflammatory and anti-cancer pharmacological activities. As one of the plant active substances, sulforaphane has multiple functions such as anticancer, antibacterial, anti-inflammatory, nerve protection, and anti-aging. It has shown good application prospects in the fields of biomedicine, cosmetics, health products, food, etc. Sulforaphane is one of the most effective active substances in vegetables for cancer prevention. It has a good preventive effect on esophageal cancer, colon cancer, breast cancer, liver cancer, colorectal cancer, etc. Sulforaphane can be used to develop anti-cancer drugs. Currently, more than 100 human clinical trials on sulforaphane have been conducted worldwide. In the future, sulforaphane may become the next dark horse in the medical field.

Global key players of sulforaphane include CS Health, Pioneer Herb Industrial, Triballat Noyal, etc. The top three players hold a share about 52%. Globally, the sulforaphane

market is mainly concentrated in the United States, Europe, China and other regions, among which North America is the world's largest consumer market. China is one of the world's major suppliers of sulforaphane. Currently, domestic companies engaged in the research and production of sulforaphane include Pioneer Herb Industrial and Shenzhen Fushan Biotechnology, etc.
