Abstracts

According to our (Global Info Research) latest study, the global Sunroof Repair and Replacement Service market size was valued at US\$ 1324 million in 2025 and is forecast to a readjusted size of US\$ 2041 million by 2032 with a CAGR of 6.3% during review period.

Sunroof repair and replacement service refers to the professional work done to restore or replace the sunroof of a vehicle. Sunroof repair and replacement service is essential maintaining the safety and functionality of a vehicle. These services ensure that the sunroof or panoramic roof functions correctly, provides a seal against the elements, and contributes to the overall safety and comfort of the vehicle. It's important to choose a reputable service provider to ensure the work is done correctly and meets all safety standards.

Growth is driven by rising installation of panoramic sunroofs, larger roof-glass panels, aging vehicle fleets, more complex electric sunroof mechanisms, weather-related leakage, accident damage, falling debris, vandalism and insurance-covered auto glass claims. Common service triggers include cracked or shattered glass, leaking seals, clogged drainage, stuck mechanisms, motor failure, track failure and wind noise.

North America and Europe are mature markets because of high vehicle ownership, insurance-backed auto glass repair networks, premium vehicle penetration and mature collision-repair channels. Asia-Pacific is the fastest-growing region because it has the largest new-vehicle production base and strong adoption of sunroofs in China, India, Japan and South Korea. Asia-Pacific's dominant share in the automotive sunroof market indicates that future aftermarket service demand will increasingly shift toward

this region.

The market is fragmented. Participants include auto glass chains, dealership service departments, body shops, collision-repair centers, independent mechanics and specialized sunroof/roof-glass providers.

The main trend is the shift from small sliding sunroofs to large panoramic glass roof systems, especially in SUVs and EVs. This increases service value per repair but also raises complexity because roof glass, seals, motors, tracks, sensors and interior trim are integrated. Another trend is higher use of insurance and claims-management platforms for roof-glass replacement.

This report is a detailed and comprehensive analysis for global Sunroof Repair and Replacement Service market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Sunroof Repair and Replacement Service market size and forecasts, in consumption value (\$ Million), 2021-2032

Global Sunroof Repair and Replacement Service market size and forecasts by region and country, in consumption value (\$ Million), 2021-2032

Global Sunroof Repair and Replacement Service market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2021-2032

Global Sunroof Repair and Replacement Service market shares of main players, in revenue (\$ Million), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Sunroof Repair and Replacement Service

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Sunroof Repair and Replacement Service market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Belron Group, Sunroof Express, Webasto Service Network, National Windscreens, NOVUS Glass, Auto Windscreens, Caliber Auto Glass, Glass Doctor, Auto Glass Now, Glasspit, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market segmentation

Sunroof Repair and Replacement Service market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.
