A surface mounted fan coil unit (FCU) is a type of HVAC (Heating, Ventilation, and Air Conditioning) equipment that is designed to provide heating and cooling to a space. It is typically mounted on a wall or ceiling surface rather than being recessed into the structure.

Surface mounted FCUs are installed on the surface of walls or ceilings, making them visible within the space. This type of installation is often used in applications where recessed or concealed units are not feasible or desired. Surface mounted FCUs are available in different designs, sizes, and configurations to suit various aesthetic preferences and performance requirements.
