Abstracts

Syrups are used as natural preservatives to reduce water activity and also employed in medicines for improving their taste. Most common types of syrups are made from corn, maple, and fruits. These are used in various types of beverages, candies, toppings, pancakes and medicines. The primary products of this industry include soft drink concentrates, beverage syrups, powders for use in soft drink production and toppings.

Scope of the Report:

This report focuses on the Syrups in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The global market for syrups is highly influenced by the rising popularity of syrups in beverages. The increasing usage of syrups as additives in frozen yogurts and other desserts and in several beverages is adding significantly to the growth of this market. Apart from this, their augmenting utilization in cocktails and mocktails as a taste enhancer and sweetener is also reflecting positively on their sales across the world. Going forward, the demand for syrups is likely to augment substantially over the next few years as syrups are organic products and are available in a wide range of low-calorie formulations.

Furthermore, the rising popularity of coffee flavoring syrups is projected to boost this market remarkably in the forthcoming years. Currently, the leading coffee vendors are aggressively focusing on introducing innovative products in a bid to sustain in the specialty coffee industry. A number of cafes, such as Starbucks, have begun to offer coffee with flavored syrups, such as caramel cappuccino and vanilla latte. This, as a

result, is having a positive impact on the sales of syrups, which is likely to continue over the next few years. Moreover, the growing demand for seasonal as well as unconventional coffee flavors is also expected to drive this market in the near future.
