Abstracts

The global Tabletop (Desktop & Benchtop) SEM market size is expected to reach \$ 274.1 million by 2029, rising at a market growth of 7.0% CAGR during the forecast period (2023-2029).

The major players in Tabletop (Desktop & Benchtop) SEM worldwide include Thermo Fisher Scientific, Hitachi High-Technologies Corporation, Jeol Ltd., Delong and COXEM. The world's top five manufacturers account for over 80% of the market. Asia-Pacific is the largest market, accounting for approximately 35% of the global market share. Followed by North America and Europe, the market shares of the two are close to 30%. In the field of segmentation, Up to 100000X is the largest segment of the Tabletop (Desktop & Benchtop) SEM market, occupying more than 55% of the market. As far as the application scenarios of Tabletop (Desktop & Benchtop) SEM are concerned, Life Sciences has the largest share over 55%.

A scanning electron microscope (SEM) is a type of electron microscope that produces images of a sample by scanning the surface with a focused beam of electrons. The electrons interact with atoms in the sample, producing various signals that contain information about the surface topography and composition of the sample. The electron beam is scanned in a raster scan pattern, and the position of the beam is combined with the intensity of the detected signal to produce an image. In the most common SEM mode, secondary electrons emitted by atoms excited by the electron beam are detected using a secondary electron detector (Everhart-Thornley detector). The number of secondary electrons that can be detected, and thus the signal intensity, depends, among other things, on specimen topography. SEM can achieve resolution better than 1 nanometre.

This report mainly studies tabletop/benchtop/desktop SEM market. Unlike conventional, large scanning electron microscopes, tabletop SEMs can easily sit on a bench or table in the lab. Tabletop SEMs provide portability with reliable analysis.

This report studies the global Tabletop (Desktop & Benchtop) SEM production, demand, key manufacturers, and key regions.
