Zarges Tanker Ladders are specifically designed for accessing, servicing, repairing, filling and cleaning road tankers or any large vehicle with a roof designed to take the weight of a person.. These mobile ladders are used primarily on road tankers in a range of different industries, this includes; the food industry, the chemical and petrochemical industries and on rail vehicles. This tank access ladder comprises a two part extension ladder with a maximum load of 150 kg, which is conveniently height adjustable via a side-mounted winch from ground level. The ladder is totally self supporting and so will not damage bodywork or livery. The basic design can be configured or modified to suit your individual requirements as each tanker ladder is built to order.
