Tattoo is defined as the temporary or permanent mark made on body part by inserting pigment or ink under the skin. It is associated with various sentimental and ritual values of people, since ancient times.

### SCOPE OF THE REPORT:

This report studies the Tattoo Removal market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Tattoo Removal market by product type and applications/end industries.

People tend to get rid of their tattoos due to various reasons. Some of these include career purposes, social conditions, personal situations, and more, which has been the key driver for tattoo removal market. Moreover, change in the lifestyle and constantly changing trends has increased the demand for tattoo removal in the market. However, high cost and the various side effects associated with tattoo removal procedures hinder the growth of the tattoo removal market. Further, technological advancement of laser methods lead to development of new ways to remove tattoo such as intense pulsed light therapy, which has unlocked new opportunities for the growth of the market.

The Americas accounted for the majority market share and is expected to dominate the market during the forecasted period. The growing demand for tattoo removal procedures in this region is due to the high availability of techniques, the presence of skilled surgeons, large patient population, high affordability, a high number of tattooed people, and increasing number of tattoo regrets. Additionally, the rise in medical tourism in countries such as Brazil and Mexico due to the availability of low-cost of treatments is also a major factor driving market growth in this region.

The global Tattoo Removal market is valued at 11800 million USD in 2017 and is

expected to reach 23600 million USD by the end of 2023, growing at a CAGR of 12.3% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.
