According to our (Global Info Research) latest study, the global Tegoprazan Tablets market size was valued at US\$ 144 million in 2025 and is forecast to a readjusted size of US\$ 891 million by 2032 with a CAGR of 16.3% during review period.

In 2025, global Tegoprazan Tablets production reached approximately 1 million units..Tegoprazan tablets are a novel, highly selective and reversible potassium?competitive acid blocker (P?CAB). By competitively inhibiting the potassium?binding site of the H?/K??ATPase on gastric parietal cells, they exert rapid, potent and long?lasting suppression of gastric acid secretion. Compared with conventional proton pump inhibitors, tegoprazan features a faster onset, more stable acid inhibition, no food effect, and a longer half?life. Clinically, it is mainly indicated for the treatment of reflux esophagitis, gastric ulcer and duodenal ulcer, and can also be used for Helicobacter pylori eradication therapy. With favorable safety and tolerability, it has become an important first?line drug for the treatment of acid?related diseases.Tegoprazan: US\$140 per units.

As the first domestic innovative P-CAB drug in China with full coverage of three core indications, tegoprazan tablets occupy an important position in the treatment of acid-related diseases owing to its clinical advantages of rapid and potent acid suppression, no food interaction, and high compliance. At present, there is huge domestic demand for acid-suppressive drugs, and P-CABs are rapidly replacing traditional PPIs. Relying on medical insurance coverage, complete indications and cost-effective advantages as a domestic drug, tegoprazan has established strong competitiveness in the middle and high-end markets.The market competition presents a tripartite pattern, featuring differentiated competition with imported vonoprazan and domestic caicloprazan, while

facing potential pressure from accelerated generic drug applications. With the upgrading of clinical guidelines, full implementation of medical insurance policies and expanding demand for *Helicobacter pylori* eradication, tegoprazan has achieved simultaneous growth in hospital and retail channels, with broad long-term growth prospects.
