Abstracts

A temperature sensor collects temperature data and displays in a human-understandable format. These sensors are of two types, contact temperature sensors and non-contact temperature sensors. Industries, automotive, Consumer Electronics and the medical sector are some of the key industries using these temperature sensors.

SCOPE OF THE REPORT:

This report focuses on the Temperature Monitoring in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Emerson, Sensata and Amphenol captured the top three production value share spots in the Temperature Monitoring market in 2016. Emerson dominated with 5.68% production value share, followed by Sensata with 3.74% production value share and Amphenol with 3.62% production value share.

In the next five years, the global consumption of Temperature Monitoring will show upward tendency further, revenue is expected in 2022 will be 9603.50 Million USD. The global automotive temperature sensors market size is expected to grow to USD 3391.65 Million by 2022. The increasing demand for safe and better automotive vehicles that are compliant with environmental regulations is driving the demand for temperature sensors.

Despite the presence of competition problems, due to the clear global recovery trend, investors are still optimistic about this area, in future still more new investment will enter into the field. Technology and cost are two major problems.

Although sales of Temperature Monitoring brought a lot of opportunities, for the new

entrants with only advantage in capital without sufficient support in technology and downstream channels, the research group did not recommend taking risk the enter this market

The worldwide market for Temperature Monitoring is expected to grow at a CAGR of roughly 4.5% over the next five years, will reach 10000 million US\$ in 2023, from 7710 million US\$ in 2017, according to a new GIR (Global Info Research) study.
