Abstracts

Testing as a Service (TaaS) is also known as on-demand testing, which is a cloud-based platform where organizations can transfer their testing facilities to third-party service providers. This platform is mostly suitable for specialized testing efforts, which dont require a lot of in-depth knowledge of the design or the product system. Services, which are well-suited for the TaaS model include performance testing, testing of major enterprise resource planning (ERP) software, automated regression testing, security testing, and monitoring or testing of cloud-based applications.

SCOPE OF THE REPORT:

This report studies the Testing as a Service (TaaS) market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Testing as a Service (TaaS) market by product type and applications/end industries.
The global Testing as a Service (TaaS) market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.

North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of Testing as a Service (TaaS).
