## Abstracts

According to our (Global Info Research) latest study, the global Third-Party Cross-Border Payments market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

The third-party cross-border payments market is expected to grow significantly during the forecast period owing to the increasing number of cross-border transactions due to globalization of enterprises and expansion of e-commerce. The Asia Pacific region is expected to experience the highest growth due to the increasing demand for online payment solutions and the growth of e-commerce in the region.

Third-Party Cross-Border Payments refer to financial transactions between two parties that involve the services of an intermediary financial institution or payment provider. In this scenario, the intermediary provides important supporting services to facilitate the cross-border payment, such as routing, currency exchange, regulatory compliance, and security.
