Abstracts

The global Three Phase Distribution Boards market size is expected to reach \$ 2310 million by 2032, rising at a market growth of 6.2% CAGR during the forecast period (2026-2032).

When electrical power is distributed to its point of utilization, it is normally either in the form of single-phase or three-phase alternating current (AC) voltage. Single-phase AC voltage is distributed into residences and smaller commercial buildings. Normally, three-phase AC voltage is distributed to industries and larger commercial buildings. Thus, the main types of power distribution systems are residential (single-phase) and industrial or commercial (three-phase).

North America and China are the main production areas of three-phase distribution boards, with a share of more than 25%. The key manufacturers are Eaton, ABB, Schneider Electric, Legrand, Hager, Siemens, Chint, Larsen & Toubro, Arabian Gulf Switchgear, Blakley Electrics, IEM, ESL Power Systems, East Coast Power Systems etc. Eaton is the largest producer with more than 10% market share.

This report studies the global Three Phase Distribution Boards production, demand, key manufacturers, and key regions.
