Abstracts

According to our (Global Info Research) latest study, the global Thyme Oil market size was valued at US$ 190 million in 2025 and is forecast to a readjusted size of US$ 292 million by 2032 with a CAGR of 6.3% during review period.

In 2025, global Thyme Oil production reached approximately 3.7 thousand tons, with an average global market price of around USD 50000 per ton.

The gross profit margin of major companies in the industry was approximately 25%–45%.

In 2025, global production capacity of Thyme Oil was approximately 4.7 thousand tons.

Thyme Oil is a natural essential oil obtained primarily through steam distillation of thyme leaves and flowering tops. It contains aromatic compounds such as thymol, carvacrol, and related terpenes and is valued for its characteristic fragrance and functional properties. Commercial products include different chemotypes and standardized grades formulated for personal care, aromatherapy, food flavoring, household products, natural health formulations, and selected agricultural and industrial applications.

The industrial chain of Thyme Oil includes upstream thyme cultivation, agricultural inputs, harvesting, drying, and botanical raw materials; midstream covers steam distillation, separation, purification, blending, standardization, quality testing, and packaging; downstream applications mainly include personal care, cosmetics, aromatherapy, food flavoring, household products, natural health products, fragrances, agriculture, and specialty industrial formulations.

Thyme oil is a natural essential oil obtained primarily from thyme plants and valued for its characteristic aroma and bioactive components, particularly thymol and related compounds. It is used in personal care, cosmetics, aromatherapy, food-related formulations, household products, and selected pharmaceutical or health-oriented applications. Market demand is benefiting from consumer interest in natural ingredients, plant-derived fragrances, clean-label formulations, and botanical functional ingredients. Product development is increasingly focused on standardized composition, improved purity, traceable sourcing, and formulations that enhance stability and ease of incorporation into finished products. Opportunities are expanding in natural personal care, functional household products, botanical flavor and fragrance applications, and formulations seeking plant-derived antimicrobial or antioxidant properties. Increasing attention to ingredient provenance and sustainable cultivation may also support suppliers capable of providing consistent quality and transparent supply chains. However, thyme oil quality can vary according to plant variety, growing conditions, extraction methods, and geographic origin, creating challenges for standardization. Raw material availability, price fluctuations, potential skin sensitivity at inappropriate concentrations, and regulatory requirements for different end uses can also affect market development. Future growth will depend on consistent quality, application-specific formulation, sustainable sourcing, and stronger standardization of botanical ingredients.

Report Scope

This report is a detailed and comprehensive analysis for global Thyme Oil market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Thyme Oil market size and forecasts, in consumption value ($ Million), sales quantity (Kilotons), and average selling prices (US$/Ton), 2021-2032

Global Thyme Oil market size and forecasts, by Type and by Application, in consumption value ($ Million), sales quantity (Kilotons), and average selling prices (US$/Ton), 2021-2032

Global Thyme Oil market shares of main players, shipments in revenue ($ Million), sales quantity (Kilotons), and ASP (US$/Ton), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Thyme Oil

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Thyme Oil market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Robertet S.A., MANE S.A., Albert Vieille SAS, Berjé Inc., Vigon International, LLC, Ultra International B.V., AOS Products Private Limited, doTERRA International, LLC, Young Living Essential Oils, LC, Plant Therapy Essential Oils, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Thyme Oil market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.
